Atlas G is a 16 meter, traditional transom stern Bodrum gulet with one master and one double cabin, each with en-suites.

Atlas G brings all of the luxury touches of a much larger gulet into a small vessel, with intimate personal service .

With her dedicated chef, fresh Aegean and Mediterranean food consumed in its own environment is one of the highlights of each day on board Atlas G.

The cockpit of Atlas G provides a spacious area to watch the captain and crew in action, have a drink from the mini-bar, and curl up with a favorite book.

Forward on board Atlas G is a very spacious lounge area with sunbeds and a seating area perfect for early morning coffee while watching the sunrise, or evening cocktails.

All cushions are in a neutral slate color, and Atlas G provides pestemel towels for clients' comfort.

Atlas G features home style toilets and enclosed showers with continuous hot water.
