Southern Cross Blue Cruising

When an Italian interior designer is let loose on a Turkish gulet, one knows that they will have created a new level of luxury and style.

At 24 meters length with four cabins taking up to 8 guests, Didi is a spectacular, contemporary gulet with impeccable service. There is a forward and an aft master, as well as a double and a twin stateroom, all with white marble en-suite bathrooms. The patented deck chairs, fine linens and modern approach to décor sets Didi apart from many other gulets as does her professional crew.
