

Trippin

THE YACHT FOR FOOD AND MUSIC FANS

A true, deluxe Aegean double ender

Trippin is a tirhandil, one of the oldest and truest Aegean and Mediterranean boat designs. With its high rudder and beautiful lines, tirhandils are rare and coveted by true sailors.

Captain and crew

He won't easily admit it, but Ali Captain is also a world renowned jazz musician and a Chef Cordon Bleu cook. Half Turkish, half American, Ali is a most gracious and knowledgeable host who is also a keen world traveler. His tight knit crew of 3 are a smooth and seamless team.

A Green Yacht

Trippin has set a new standard with regard to environmental consciousness. With her custom waste water treatment system, organic cuisine and water maker, she is one of the very few yachts to be completely green.

You are as likely to find Ali Captain in the galley as at the helm, and his belief in using sustainable, organic produce is reflected in the excellent cuisine on board.
