WORLD CRUISING ON A ABS CERTIFIED BODRUM SAILING GULET

The only sailing gulet in Bodrum built to both ABS and MCA standards.

Contemporary, modern sailing yacht in steel

The extensive exterior areas, conceived for life in the open air, are fully clad in teak, and their scale testifies to just how enjoyable the yacht is for cruising. That said, the most surprising feature is the spaciousness of the interior areas for long stays on board. These areas are fully clad in mahogany and confirm how comfortable the yacht is for longer voyages.

2010 Launch by Pax Navi Boatyard

State of the art technology has been used to ensure the quietest and smoothest of motor sailing conditions, including an independent suspension of the interior from the steel hull.

Flexible Accommodations

The master stateroom has a king-size bed and has his and her bathrooms. One twin cabin has an extra bed and one double cabin has an extra bed. The two forward double cabins, each with en-suite shower room, are convertible into one large stateroom. Crew of 8 have separate accommodations.
